<i>Total Spend</i>		

Step 2. When you look at your total spend and then at your Christmas fund how do you feel? If you don't have a Christmas fund then you need to start putting money aside in a hurry. Remember no credit cards or borrowing!!

Step 3. If you are looking a bit short, you have three options:

- a) Cut out people receiving pressy's. Give love or free coupons instead
- b) Go basic on pressy's. More cards and little knick knacks.
- c) Work more hours so you can save some cash...

Step 4. Once you are happy you need to make it happen. You got your plan now stick to it and then have a relaxed Christmas and a stress free New Year!
